Inter Vista Networking, Inc. ("Inter Vista") pursuant to Section 52.15(g)(3)(i) of the Commission's Rules, respectfully supplements its February 2, 2017 Application for Authorization to Obtain Numbering Resources ("Application") as described below.

As set forth in the Commission's *Numbering Order*¹, an interconnected VoIP provider may obtain numbering resources from the Numbering Administrator upon a showing that it is authorized to provide service in the area for which the numbering resources are requested. Such authorization may be obtained upon an application to the Commission containing the information detailed in Sections 52.15(g)(3)(i)(A)-(F) of the Commission's Rules. O1 filed its Application on February 2, 2017 and hereby supplements the Application with the following:

1. Contact information for Michel Singer Nelson. Ms. Singer Nelson, Counsel and VP of Regulatory and Public Policy may be reached directly by dialing 916 235 2028 or through email at mnelson@o1.com.

2. Interconnected VoIP Services and Form 477 filing. Inter Vista intends to provide interconnected Voice over Internet Protocol ("VoIP") services as defined by 47 C.F.R. §9.3 as well as non-interconnected VoIP services. O1 understands its obligations to file the Commission's Form 477 when due and intends to do so consistent with the Commission's rules.

3. List of States for Initial Numbering Requests. Inter Vista intends initially to request numbers to enable it to operate in the State of California. Upon deciding to request numbers and expand operation to additional states, O1 will follow the Commission's rules to do so.

4. Clarification regarding the parties to Confidential Exhibit A and Exhibit B.

¹ *Numbering Policies for Modern Communications et al.*, Report and Order, 30 FCC Rcd 6839 (2015).

Inter Vista intends to provide services initially through partnering with its affiliates, including its regulated affiliate O1 Communications, Inc.. Confidential Exhibit A attached to Inter Vista's Application is a confidential commercial agreement between Inter Vista and one of its affiliates, O1 Services, Inc.. O1 Services, Inc. is a non-regulated entity that enters into commercial agreements to provide services to customers through O1 Services, Inc.'s regulated affiliates as necessary, including O1 Communications, Inc., a certified competitive local exchange carrier ("CLEC") and inter-exchange carrier ("IXC"). The parties intend O1 Communications, Inc. to act as Inter Vista's CLEC partner as necessary to enable Inter Vista's customer traffic to be exchanged with the public switched telephone network ("PSTN").

Exhibit B to the Application is the interconnection agreement ("ICA") between Inter Vista's CLEC partner, O1 Communications, Inc. and Pacific Bell Telephone Company d/b/a/ SBC Pacific Bell Telephone Company for the State of California (now d/b/a AT&T California). The excerpts of the ICA filed in Exhibit B name Pac-West Telecomm, Inc. as the CLEC party to the agreement instead of O1 Communications, Inc. To eliminate confusion that may result from the naming of Pac West in Exhibit B instead of O1 Communications, Inter Vista provides the following explanation. O1 Communications, Inc. opted into the Pacific Bell/Pac-West agreement pursuant to Sections 251 and 252 of the federal Communications Act, 47 U.S.C. §151 *et seq.* . O1's adoption of Pac West's agreement is practically executed by the parties through the replacement of Pac West's name by O1 Communication's name throughout the agreement. Excerpts of the ICA filed as Exhibit B to the Application were retrieved from AT&T's website (https://clec.att.com/clec_cms/clec/clec.html#P) and identified by AT&T as the ICA between O1 Communications, Inc. and AT&T currently in effect for the State of California.

5. No International Ownership. No international entities possess any ownership of

Inter Vista.

Dated this 28th day of March 2017.

Respectfully Submitted,

Michel Singer Nelson
Counsel and VP of Regulatory and Public
Policy
